Dear [redacted]:

Re: You are entitled to the information you requested - 2022-00106-HEA

The Department of Health and Wellness received your application for access to information under the *Freedom of Information and Protection of Privacy Act* (the Act) on January 21, 2022.

In your application, you requested a copy of the following records:

> *Amended January 26, 2022:*
> *All monetary distributions/payments to all pharmacies in NS for administering COVID-19 vaccines. Not including any staff salaries. (December 20, 2020 to January*

More freedom-of-information requests has taken place in Nova Scotia. It would be nice to know how much is being spend on tests, vaccines, and to see some of the contracts. Anyhow, we have at least some information to share on those topics.

Our friend in Nova Scotia is back at it again, digging up dirt and information about the tyranny of Robert Strang. Here are some of the latest finds. Previously, there was the hospitalization scam debunked, the lack of data for masks in schools, the screwy definition of “cases”, Nova Scotia reduced (yes, reduced) ICU capacity, there’s no evidence “asymptomatic spreading” even exists, and they refused to provide the CANImmunize/Clinic Flow contract.

Let’s take a look at how your money is being spent:

[Amended January 26, 2022:]
All monetary distributions/payments to all pharmacies in NS for administering COVID-19 vaccines. Not including any staff salaries.
(December 20, 2020 to January 20, 2022)
.
All monetary distributions/payments to all pharmacies in NS for administering COVID-19 PCR tests. Not including any staff salaries. (January 1, 2020 to January 20, 2022)
(Date Range for Record Search: From 12/19/2020 To 1/19/2022)

Walmart Pharmacy 5789 - Amherst - UC #815	$30,848
Waverley Road PharmaChoice - Dartmouth - UC #899	$118,944
Waverley Road PharmaChoice Pharmacy - Dartmouth - UC #899	$12,544
West End Family PharmaChoice 1149 - Truro - UC #1067	$25,936
West Pubnico Pharmasave - West Pubnico - UC #903	$41,648
Westphal Pharmachoice	$592
Westphal Pharmachoice - Dartmouth - LIC #1008	$124,112
Weymouth Pharmasave 580 - Weymouth - UC #971	$36,208
Wilsons Pharmasave - Kentville - LIC #992	$49,008
Wilsons Pharmasave 521 - Berwick - UC #643	$59,856
Wilsons Pharmasave 521- Berwick - LIC #643	$16,464
Windsor Pharmasave - Windsor - LIC #936	$161,184
Wrights Pharmasave - Parrsboro - UC #1077	$28,816
Your Pharmacist Drug Store - Liverpool - LIC #931	$192
Grand Total	**$19,13 8,384**

The Government claims to have spent $19.1 million on vaccines for pharmacies, and this doesn’t include any salaries. They also answer that the only testing that goes on it paid for by the patients seeking them. They included a list of pharmacies, along with the amounts each has received.

What else do we have here?

Dear [redacted]:

Re: Notice to Applicant of Third-Party Notice– OUR FILE# NSHA-2022-044

On February 10, 2022, Nova Scotia Health (NSH) received a request under the *Freedom of Information and Protection of Privacy Act* (*FOIPOP Act*).

We understand your request to be for the following:

Contracts for our lab to perform COVID testing on a fee for service basis.

Your request may affect the interests of a third party under section 21(1) of the *FOIPOP Act*. Section 21(1) of the *FOIPOP Act* exempts confidential business information from disclosure when the following criteria are met:

1) *The head of a public body shall refuse to disclose to an applicant information*

Another FOI request involved getting copies of the testing contracts that the Province has with 3rd party providers. This has been put on hold as it’s claimed that it may release confidential business information of those 3rd parties. The company(ies) must respond in 14 days to either consent to the release, or to provide written reasons for refusing.

While Nova Scotia may be hesitant to turn over the contracts, we can guess who might be doing the testing. They may not be too proud of this.

23) What emergency use authorizations or regulatory approvals did the kit receive?

In 2020, our kit received emergency use authorizations or regulatory approvals around the world:

- Jan 26: Emergency approval from China’s National Medical Products Administration (NMPA)
- Feb 25: CE-IVD Mark
- Mar 26: Emergency Use Authorization (EUA) from US FDA
- Mar 27: Emergency approval from Japan’s PMDA
- Apr 10: Australian Register of Therapeutic Goods from Australia’s TGA
- Apr 24: EUA Amendment from US FDA
- Apr 27: Provisional Authorization from Singapore’s Health Sciences Authority
- May 4: Importation and Sale Authorization under Interim Order from Health Canada
- May 7: WHO Emergency Use Listing for IVD detecting SARS-CoV-2

One such company is BGI Genomics, a Chinese company, based in Hong Kong. It received interim authorization from Health Canada on May 4, 2020. This raises all kinds of questions.

Their product has also been allowed into Japan, Singapore, Australia, and the United States. Considering the potential for mass data mining with people’s DNA, it’s certainly worthwhile to know who’s actually in charge of this.

At the time of writing this, there are about 100 versions of testing authorized by Health Canada, many of them foreign owned. Many more applications are under review. Now, any of them who are either infiltrated — or owned — by a Government could use this as a DNA dragnet.

And if you haven’t seen Christine Massey’s work with Fluoride Free Peel’s, go do that. There are some 200 or so FOIs showing that no one, anywhere in the world, has ever isolated this “virus”. It’s never been proven to exist. There’s no point having a discussion on what treatments are beneficial, until the existence of this is demonstrated.

[Author’s note: there have been issues with subscribers not getting notifications recently. If someone could confirm they received the article, it would be appreciated. It’s editor(at) canucklaw.ca. This portion will be deleted soon.]
